

**What is Claimed is:**

1. A method of conducting a transaction from within a vehicle, the method comprising the steps of:  
     locating the vehicle adjacent a transaction terminal;  
     entering user instructions on an in-car data entry facility provided within the vehicle; and  
     transmitting the user instructions locally to the terminal for execution by the terminal.
2. A method in accordance with claim 1, further comprising the step of identifying the user.
3. A method in accordance with claim 1, further including the steps of transmitting data locally from the terminal to the vehicle, and displaying a part of the data on an in-car display located within the vehicle.
4. A method in accordance with claim 1, further comprising the step of retrieving cash or other valuable media dispensed from the terminal.
5. A method in accordance with claim 1, further comprising the step of uploading electronic valuable media to a memory storage device located within the vehicle.
6. A method in accordance with claim 1, further comprising the step of downloading electronic valuable media to the terminal from a memory storage device.

7. A method in accordance with claim 1, further comprising the steps of transferring programs/instructions from the terminal to an in-car processor unit provided within the vehicle, and executing the programs/instructions.

8. An in-car apparatus to be provided within a vehicle for user interfacing with a transaction terminal, the apparatus comprising:

means for interacting with a user; and

means for transmitting data locally to a transaction terminal situated adjacent the apparatus.

9. An apparatus in accordance with claim 8, further comprising means for receiving data and/or instructions transmitted from a transaction terminal situated adjacent the apparatus.

10. An apparatus in accordance with claim 8, further comprising memory storage means for recording data.

11. A kit comprising:

a fascia including means for interacting with a user carrying out a transaction at a transaction terminal; and

means for mounting the fascia to at least a portion of a vehicle to provide an in-car apparatus for enabling a user in the vehicle to carry out a transaction at a transaction terminal located adjacent the vehicle.

12. A kit according to claim 11, wherein the mounting means includes means for mounting the fascia beneath the dashboard of the vehicle.

13. A kit in accordance with claim 11, further comprising means for transmitting data locally to the transaction terminal located adjacent the vehicle.

14. A kit in accordance with claim 11, further comprising means for receiving data and/or instructions transmitted from the transaction terminal located adjacent the vehicle.

15. A kit in accordance with claim 11, further comprising memory storage means for recording data.

16. A kit comprising:  
a fascia including means for interacting with a user in a vehicle to allow the user to carry out a transaction at a transaction terminal located adjacent the vehicle; and  
means for fixedly mounting the fascia to at least a portion of a vehicle.

17. A kit according to claim 16, wherein the mounting means includes means for fixedly mounting the fascia beneath the dashboard of the vehicle.

18. A kit in accordance with claim 16, further comprising means for transmitting data locally to the transaction terminal located adjacent the vehicle.

19. A kit in accordance with claim 16, further comprising means for receiving data and/or instructions transmitted from the transaction terminal located adjacent the vehicle.

20. A kit in accordance with claim 16, further comprising memory storage means for recording data.
